

Categorical Exclusion Determination and Decision Record for C2 Fence Salvage

CE #OR115-08-36

Description of Proposed Action

A request was made by an adjacent landowner for the removal of approximately 14 blown down trees, the results of a recent snow and wind storm. The blowdown knocked down approximately 1,000 feet of fence along the adjacent property line. The trees need to be removed as soon as possible in order for the landowner to rebuild his fence. Logs would be winched or lined to the adjacent landowner's property. No equipment will be operated on BLM-managed lands. The project is located on matrix lands in the Little Butte Creek fifth field watershed.

The project is situated in the northeast ¼ of the southwest ¼ and the northwest ¼ of the southeast ¼ of section 15, Township 36 South, Range 2 East, Willamette Meridian, Jackson County, Oregon.

Plan Conformance Review

This proposal was not scoped and the public was not involved in its development. This proposal is consistent with policy directed by the following:

- *Final Supplemental Environmental Impact Statement and Record of Decision for Amendments to Forest Service and Bureau of Land Management Planning Documents Within the Range of the Northern Spotted Owl* (Northwest Forest Plan FSEIS, 1994 and ROD, 1994);
- *Final-Medford District Proposed Resource Management Plan/Environmental Impact Statement and Record of Decision* (EIS, 1994 and RMP/ROD, 1995);
- *Record of Decision To Remove the Survey and Manage Mitigation Measure Standards and Guidelines from the Bureau of Land Management Resource Management Plans Within the Range of the Northern Spotted Owl* (USDI 2007); and
- *Medford District Integrated Weed Management Plan Environmental Assessment (1998)* and tiered to the *Northwest Area Noxious Weed Control Program* (EIS, 1985).

The proposed action is in conformance with the direction given for the management of public lands in the Medford District by the Oregon and California Lands Act of 1937, Federal Land Policy and Management Act of 1976, Endangered Species Act of 1973, Clean Water Act of 1987, Safe Drinking Water Act of 1974 (as amended 1986 and 1996), Clean Air Act of 1990 (as amended), and Archaeological Resources Protection Act of 1979.

This proposal is consistent with management direction in the Medford District Resource Management Plan that directs the BLM to "Provide for salvage harvest of timber killed or damaged by events such as wildfire, windstorms, insects, or disease, consistent with management objectives for other resources" (USDI 1995, p. 72).

Categorical Exclusion Determination

The proposed action qualifies as a categorical exclusion as provided in United States Department of the Interior Departmental Manual 516 DM 11.9 C(2). This section allows for “Sale and removal of individual trees or small groups of trees which are dead, diseased, injured, or which constitute a safety hazard, and where access for the removal requires no more than maintenance to existing roads.”

Before any action described in the list of categorical exclusions may be used, the “extraordinary circumstances,” included in 516 DM 2, Appendix 2, must be reviewed for applicability. After review, the BLM determined no extraordinary circumstances exist that would cause the proposed action to have a significant environmental effect. The action will not require additional analysis.

Project Design Features

1. Motorized vehicles will not operate on BLM-administered lands.
2. Only trees which have fallen across the property line will be removed.
3. Large coarse woody debris of 120 linear feet (16" x 16') per acre will be left on-site.
4. Slash will be lopped and scattered.

Decision

Based on the attached NEPA (National Environmental Policy Act) Categorical Exclusion Review, I have determined the proposed action involves no significant impact to the human environment and no further environmental analysis is required. It is my decision to implement the removal and sale of blown down trees as described above.

Decision Rationale

The proposed action has been reviewed by Butte Falls Resource Area staff and appropriate Project Design Features, as specified above, will be incorporated into the proposal. Based on the attached NEPA (National Environmental Policy Act) Categorical Exclusion Review, I have determined the proposed action involves no significant impact to the human environment and no further environmental analysis is required.
